The attention to detail is truly impressive with adjustable lighting (colour and brightness) on the main floor and in the basement family room, 10 foot ceilings on the main floor and upper bonus room, 9 foot ceilings in the basement, 9 foot doors throughout upper floors, bump out in the dining room for a larger table, window seat with storage and a built-in desk on the upper floor, speaker system pre-wired through entire home, and a timed sprinkler system that the owners maintained yearly.
